### ABOUT ME

I'm a Full Stack developer with around two years of experience. I have created SPA applications for complex e-commerce websites, crypto trading platforms. Back to my first year as a developer, I worked with various landing pages. Currently, I work in Swipeks Studio, where I have dived into all stages of the development process, got experience in the teamwork and learned to work on multiple projects simultaneously.

Right now, I would like to work in a team with other developers, where I can apply and share my skills and at the same time learn new technologies. One of my priorities for coming years is to start developing mobile app

### LANGUAGES

### COURSES

Udemy - Angular 8 (formerly Angular 2) - The Complete Guide (Maximilian Schwarzmüller),
