ABOUT ME

I'm a Junior Front-end developer with around six month of experience. I have created mark-up for complex e-commerce websites, worked with various landing pages. My last job was Swipeks Studio, where I have dived into all stages of the development process, got experience in the teamwork and learned to work in a team. Right now, I'm looking for new opportunity to me to work in a team with other developers, where I can apply and share my skills and at the same time learn new technologies. One of my priorities for coming years is to become a Full-stack developer.

LANGUAGES

UKRAINIAN: Native

ENGLISH: Pre-Intermediate

RUSSIAN: Fluent
